

Ontario Secondary School Records (OSR)

An Ontario School Record (OSR) is maintained for each student. This record is a basic element in the process of monitoring a student's progress through school. Once a student's progress and achievement have been measured and assessed, they are recorded in the OSR. Other data recorded are: date of birth, Social Insurance Number, Ministry of Education Number, and/or the Ontario Education Number, schools attended, names of parents/guardians.

A student and his/her parents may have access to the student's OSR. It is not available to other students, parents, or individuals. For more information, please call the school's Guidance Department.
