

Course Description/Rationale/Overview: *This course is basically an extension of TGJ 20, which allows Intermediate level students the opportunity to further develop their skills in the Communications area. Students will be required to complete a wide range of Communication Technology projects such as: creating printed stationary, short videos, audio compositions, technical drawings, web graphics and computer-generated animations. The knowledge and skills that students develop will provide a basis for TGJ4M, which allows students to specialize in one area of Communications, or for careers in areas such as Publishing, Advertising, Print Production, Animation, Photography, and Journalism.*

Class Requirements:
Materials/textbooks/equipment

Portable Flash Drive

Missed Tests and Late Assignments

Students are to be present for test dates. There must be a verified, valid reason when a test is missed. The teacher may provide an alternative opportunity for testing or record an "absent" for that test.

All summative assignments will have a clear *Due Date*. Assignments that are handed after the *Due Date* will be accepted and assessed by the teacher if submitted prior to the *Deadline*. The *Deadline* is defined as the class period in which that graded assignment is returned to the class, unless there are extenuating circumstances.

For the mid-term report, no mark will be recorded for a missed summative assignment. Where a student has not submitted enough work for the teacher to determine the student's level of achievement the report card will indicate that the student's work is incomplete and no grade will be assigned.

At the semester end, where summative assessments are incomplete, a mark of zero may be assigned and used to calculate the student's final grade.

Assessment Strategies

Assessment of your achievement is divided into the following categories:

- Practical Assignments 40%
- Written Assignments 20%
- Culminating Task 10%

Achievement Categories

Knowledge/Understanding
Thinking/Inquiry
Communication
Application
Exam

Curriculum strands:

Computer Animation
Video Production
Design Layout
Internet Research Skills
Network Applications

Learning Skills:

Team work
Initiative
Organization
Homework

Evaluation

The year's work will be based on:

- Quizzes
- Assignments
- Culminating Task
- Exam

FINAL MARK

Year's Work: 70%

Application Assignments....40%
Knowledge Understanding Assignments....30%
Communication Assignments...15%
Thinking Inquiry Assignments....15%

Final Summative Evaluation: 30%

The Final Summative Evaluation will be a combination of the Achievement Categories
